Thank you for your business!

As part of our offerings we have partnered with TrustLayer to provide a full service subcontractor vetting service. The platform allows for monitoring and compliance of contract requirements, COI's, as well as other documents (W-9, Contractors licenses, etc.). Please read the attached documents for more information on the service.

If you are receiving this letter with your quote or policy documents, this is a mandatory service.

All fees for this service have been included in the quoted premium and fees. No additional premium or fees will be charged to the insured once the policy has been bound.

Co-operation with the service is required and any failure to enroll or provide the required information could affect your policy and potentially lead to cancellation or non-renewal.

Please click on the button below or copy and paste the link into your browser to start the on-boarding process. For more information regarding the process, please contact your agent.

Getting Started with TrustLayer+

Welcome to TrustLayer!

Get ready to simplify how you manage third-party risk. This guide will walk you through four easy steps to get your account fully configured and ready to go!

Step 1: Policy Confirmed

Your Journey begins the moment your policy is bound. We"ll receive a notification and start the enrollment process for you.

Step 2: Kickoff Email Arrives

Look for a kick off email from us. It will outline the data we need to get you set up in the system. We'll send you a confirmation as soon as your data has been successfully uploaded.

Step 3: Train with Confidence

Schedule training sessions with your dedicated implementation manager. They will will help plan, build, and learn your new TrustLayer workspace.

Step 4: Optimize Your Workflow

Meet your TrustLayer+ Account Manager to fine tune your workspace. They will work with you to develop workflows and best practices to ensure your account is perfectly configured to your needs.

Estimated Timeline

Kick-Off Email
TrustLayer will send kick of email to client

24-48 hrs

Track and verify important compliance documents the modern way

The #1 tool for risk managers to automate document collection, tracking and verification. TrustLayer is the preferred way to build an accurate and efficient risk-transfer program.

Easy Vendor Compliance
Collect, verify, and, manage new/ expired Certificates of Insurance, W9, and other required licenses.

Business Partner Risk Visibility
Have complete visibility into vendor compliance withaccess to our compliance dashboard summarizing each party's status.
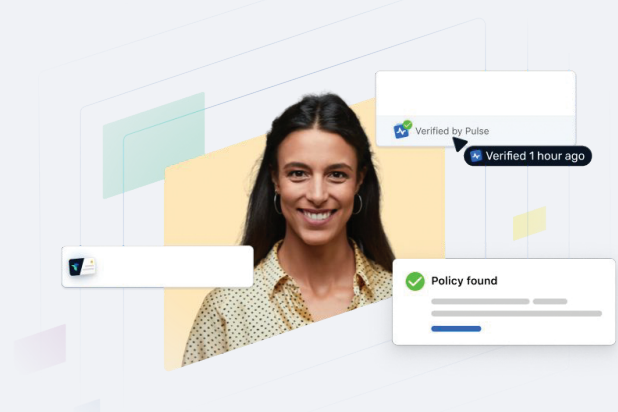

Streamlined Workflow
Automate compliance workflows to minimize repetitive, manual admin tasks, and concentrate on revenue-generating activities.

Reduced Operating Cost
Accelerate business transactions, while also decreasing loss ratios due to fraud and manual errors.

Efficient Collaboration
Collaborate with all stakeholders in real-time on vendor compliance tasks to efficiently reduce vendor risk.

3 Ways We Attack the Problem

1. Risk Collaboration

Automatically request, collect and follow up with vendor documents, like COIs.

Never be sitting on expired documents again with reminders.

No sign-in required for your vendors.

2. Risk Visibility

Compliance Assistant shows your level of compliance across multiple projects or properties.

Compliance analytics to provide trends in your data over time.
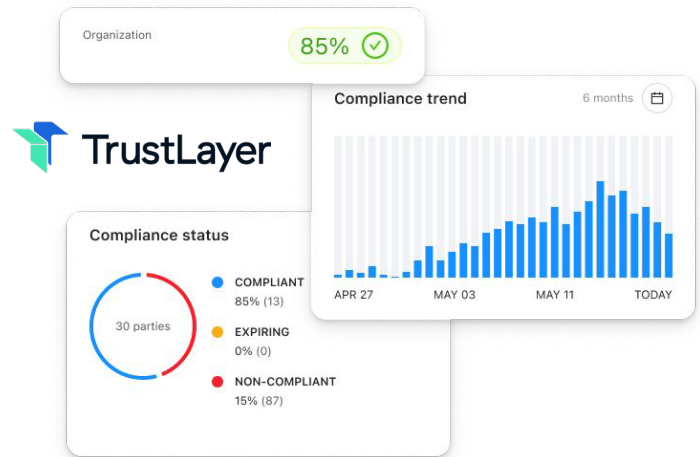

Reporting exportable to multiple systems of record.

3. Insurance Verification

TrustLayer Pulse: Policy-level proof of insurance from select providers.

TrustLayer +: Full Service Outsourced Risk Management takes the burden off of your team while scaling up and down as required.

About TrustLayer

TrustLayer is a collaborative risk management platform that helps insureds with third party compliance. We have quickly become one of the most established network of carrier, broker partners and insured partners that use TrustLayer for contractual risk transfer. Top brokers in the US include our product with their risk management services to improve your risk profile making companies best in class risk.

"The TrustLayer platform has made the process of compiling insurance information for our vendors very efficient. It streamlined how we contact vendors and created one space for housing certificates and all the necessary documents we keep for our vendors, including contracts and W9."
